PROFILE

Computer Science Honors student at Queen's University with extensive experience in a variety of fields. An enthusiastic team player with proven leadership and communication skills.

Seeking opportunity to leverage my talents, to further advance the company and to achieve company targets.

WORK EXPERIENCE

May 2021 –
August 2021

Software Developer CoOp, *Trend Micro*

Interned as software developer throughout the summer at Trend Micro. I worked on the back-end development of Trend Micro's Deep Security product, using tools such as AWS Lambda, SQL, and S3.

June 2019 –
May 2021

Rock Climbing Coach and floor staff, *Altitude Gym*

Started out at a floor staff, then started working in birthday parties, cafe and reception as well, until I eventually started to coach. Initially I only coached the recreational courses but a few months later I started coaching the pre-competitive climbing team instead. Towards the end I also started coaching the competitive program.

Sept 2019 –
Jan 2020

Junior Software Developer, *Northforge Innovations*

Worked on two projects at a human outsourcing company.

- A **Spring-boot MAVEN full-stack** application built in both **Java** and **JavaScript**. The application was a network graphing software mainly built in **JavaScript** with the use of **React.js**, **d3.js** and **bootstrap**.
- I made **python** automation scripts for **Excel** using **openpyxl**.

EDUCATION

Queen's University at Kingston, *Ontario, Canada*

2020 - 2024: Honors Bachelor of Computer Science

AQUIRED SKILLS

- Software skills: JavaScript (react.js, d3.js), HTML & CSS, Java (MAVEN, Gradle, Sprint-boot, REST API), MonkeyC, Python, git, AWS (Lambda, SQL, S3)
- Languages: English, Russian, Hebrew
